

WELCOME

to the second edition of our
FIXhub Newsletter!

We are happy to inform you about news and developments within and around our network and hope that you will enjoy reading it.

Corona has forced us – and we are sure that many of our readers have had the same experience - to change our working habits and to adapt to new requirements and workflows. We have therefore unfortunately been unable to visit and meet our Buy and Sell Side members and our partners as much as we would have liked.

Despite of all this, we are extremely pleased that we have installed and went live with a considerable number of new network connections between new and existing FIXhub members and partners over the past 6 months. This – together with generally increased business due to the high volatility in the markets, has brought the number of orders and execution messages routed via FIXHub.net to a new high and further strengthened our position as one of the

leading order routing networks in Europe.

Thank you very much for contributing to this growth!

FIXhub Events

Due to Corona there are sadly no internal events or participation in external events planned for the foreseeable future.

We will inform you if and when this situation changes.

Please do feel free to send us any suggestions for additional coverage. We will be happy to consider and incorporate your ideas, wherever possible:

info@fixhub.net

MEMBER SECTION:

We are very happy to welcome the following Sell Side Members to FIXhub:

- **Banque Havilland**
- **Velocity Trade – Netherlands**
- **ZKB – Zürcher Kantonalbank**

Please feel free to contact them directly

or to ask us for contact details in case you are interested in routing order flow to them.

You can easily download an updated list with all Sell Side Members and Trading Platforms currently available via the network on our website: [here](#)

Please contact us for any contact details or if you cannot find the broker of your choice: info@fixhub.net

PARTNER/VENDOR SECTION:

FIXhub.net works closely with a steadily growing number of partner companies.

This allows our partners' clients to route electronic orders directly from their front end and to receive real time execution information back into their solution. Needless to say, this considerably eases their workflow, very often increases their business and enables them to fulfil all legal and regulatory requirements.

We have recently and successfully gone live with one of hopefully many connections routed from our partner company WEALTHARC's software solution.

This particular connection is based on a specifically developed interface between WEALTHARC and FIXhub, which allows users of the software to seamlessly connect with all Sell Side Members and Trading Platforms

available via FIXhub for the execution of their order flow.

We also welcome the following new partner companies to FIXhub.net:

- **ALLOCARE AG**

For more information about our partner companies or the order routing possibilities offered via our partners, please contact us: [here](#)

You can find a list of all current partner companies: [here](#)

As we are currently planning to issue this newsletter on a half-yearly basis, this will be the last issue for 2020!

We would therefore like to take this opportunity to thank you very much for your interest and your support during this difficult year.

We now look forward to 2021 in the hope that Corona will not much longer prevent us from travelling so that we will be able to see as many of YOU, our customers, as possible and to be able to discuss matters of interest to you - in person and in detail.

Stay healthy – with the best wishes
from your
FIXhub TEAM

**Your business contact persons are
always there for you**
